Who We Are

- **Advanced Medical Company (AMC)** was founded with the primary mission of delivering a comprehensive range of top-tier medical equipment and products.
- Our goal is to empower healthcare professionals by providing innovative solutions that enhance their ability to improve patient health and wellbeing.
- Through our extensive healthcare services, delivered by a skilled team of experts, we aim to accelerate the advancement of faster, more reliable healthcare services, while also contributing to greater economic value.

Approach

Our customers are our partners

Our highly collaborative process begins by understanding and defining their business objectives, scope, and the resulting deliverables. Our focus is on delivering tailored solutions that support their success, while striving to be an innovative, constantly evolving company that contributes to society.

Our Mission

- Our mission is to connect clinicians and patients by leveraging innovative technologies to enhance clinical care and improve patient outcomes in a measurable manner.
- We are committed to effectively addressing the specialized and diverse needs of the medical community, bridging gaps while upholding the highest standards of honesty and integrity.
- Our efforts are entirely dedicated to our customers.

Our Vision

AMC's vision is to support medical professionals from a fresh perspective, focusing on healthcare consumers and professionals rather than the product or company.

We strive to exceed customer expectations through reliable services and high-quality products from our international partners.

With our strategic plans, we aim to grow and become a leading force in the country.

Our Core Divisions

- Healthcare information Systems
- Healthcare / Business Consultancy
- Diagnostic Medical Imaging
- Dental Equipment & Oral Health Solutions
- Surgical Instruments & Operating Room Solutions
- Training and Technical Support
- Advanced Dermatological Therapies
- Medical Supplies & Consumables

Healthcare Information Systems

- Our mission is to provide integrated health informatics solutions to hospitals and healthcare facilities.
- We focus on driving digital transformation, achieving excellence, and earning industry recognition in healthcare information systems and hospital management. We offer interoperable, best-in-class international solutions that enable paperless hospital environments, evidence-based clinical content, and the adoption of global best practices.

Healthcare / Business Consultancy

- Our healthcare and business consultancy services provide expert guidance to help organizations optimize operations, reduce costs, and improve patient care or business performance. We analyze processes, develop strategies, and ensure regulatory compliance, supporting organizations in achieving their goals. Our team of experienced professionals, including healthcare consultants, managers, and analysts, work together to improve performance, develop strategies, and drive successful outcomes.

Diagnostic Medical Imaging

- Our Diagnostic Imaging Department proudly operates in partnership with Carestream, a global leader in medical imaging technologies.
- We provide cutting-edge, reliable equipment that enhances patient care, diagnostic accuracy, and operational efficiency.

Dental Equipment & Oral Health Solutions

- We offer a wide range of materials, equipment, and services tailored for medical and dental clinics and laboratories.
- We aim to equip dentists and dental technicians with the latest technologies and innovations to stay ahead in this ever-evolving field, by partnering with well known global leaders in the field.
- Our comprehensive solutions are designed to meet the specific needs of each practice while maintaining the highest standards of customer service and post-sales support.

Surgical Instruments & Operating Room Solutions

- We provide high-quality surgical instruments and operating room solutions to enhance surgical procedures and improve patient outcomes.
- Our solutions focus on efficiency, safety, and precision.
- We work with healthcare providers to select and implement the best instruments and technologies tailored to each facility's needs, ensuring the highest standards of care.

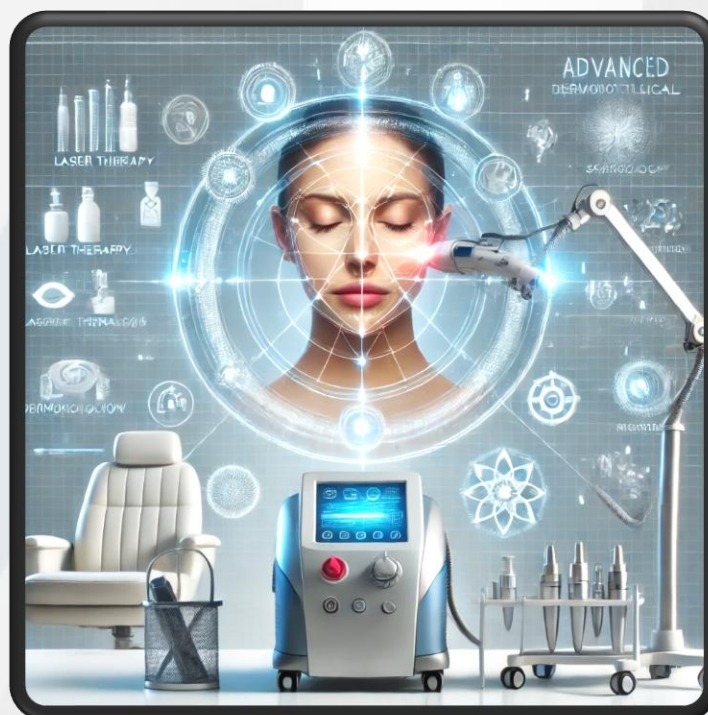

Training and Technical Support

- Our team of certified engineers provide training and technical support services to help healthcare professionals optimize the use of their equipment and technology.
- Our tailored training programs ensure staff are well-equipped to operate systems efficiently, while our technical support team offers ongoing assistance, troubleshooting, and maintenance to keep systems running smoothly and at peak performance.

Advanced Dermatological Therapies

- Our advanced dermatological therapies provide cutting-edge solutions for the treatment of a wide range of skin conditions.
- We offer the latest treatments and technologies designed to address various dermatological needs, from skin rejuvenation to the management of chronic skin diseases. Our solutions are developed by experts in the field and are tailored to deliver safe, effective, and long-lasting results, ensuring improved skin health and overall patient satisfaction.

Medical Supplies & Consumables

- We provide a comprehensive selection of disposable medical devices, component parts, hospital supplies, as well as disposable and surgical procedure kits.
- Our extensive range of products is designed for use across all age groups, from neonates to adults, and is suitable for various clinical departments.

Our Team

- Our team is composed of highly skilled professionals with expertise across various fields of the healthcare sector. With in-depth knowledge of the market, products, and the latest innovations, we are well-equipped to achieve business objectives while supporting medical professionals in delivering high-quality patient care.

- Our team's success is driven by effective communication, mutual respect, and a shared commitment to the company's goals. They collaborate closely, exchanging ideas, supporting each other, and providing constructive feedback. Regular team-building activities, including meetings, training sessions, and social events, help cultivate a strong sense of camaraderie and teamwork.
